DEEPAK SHARMA

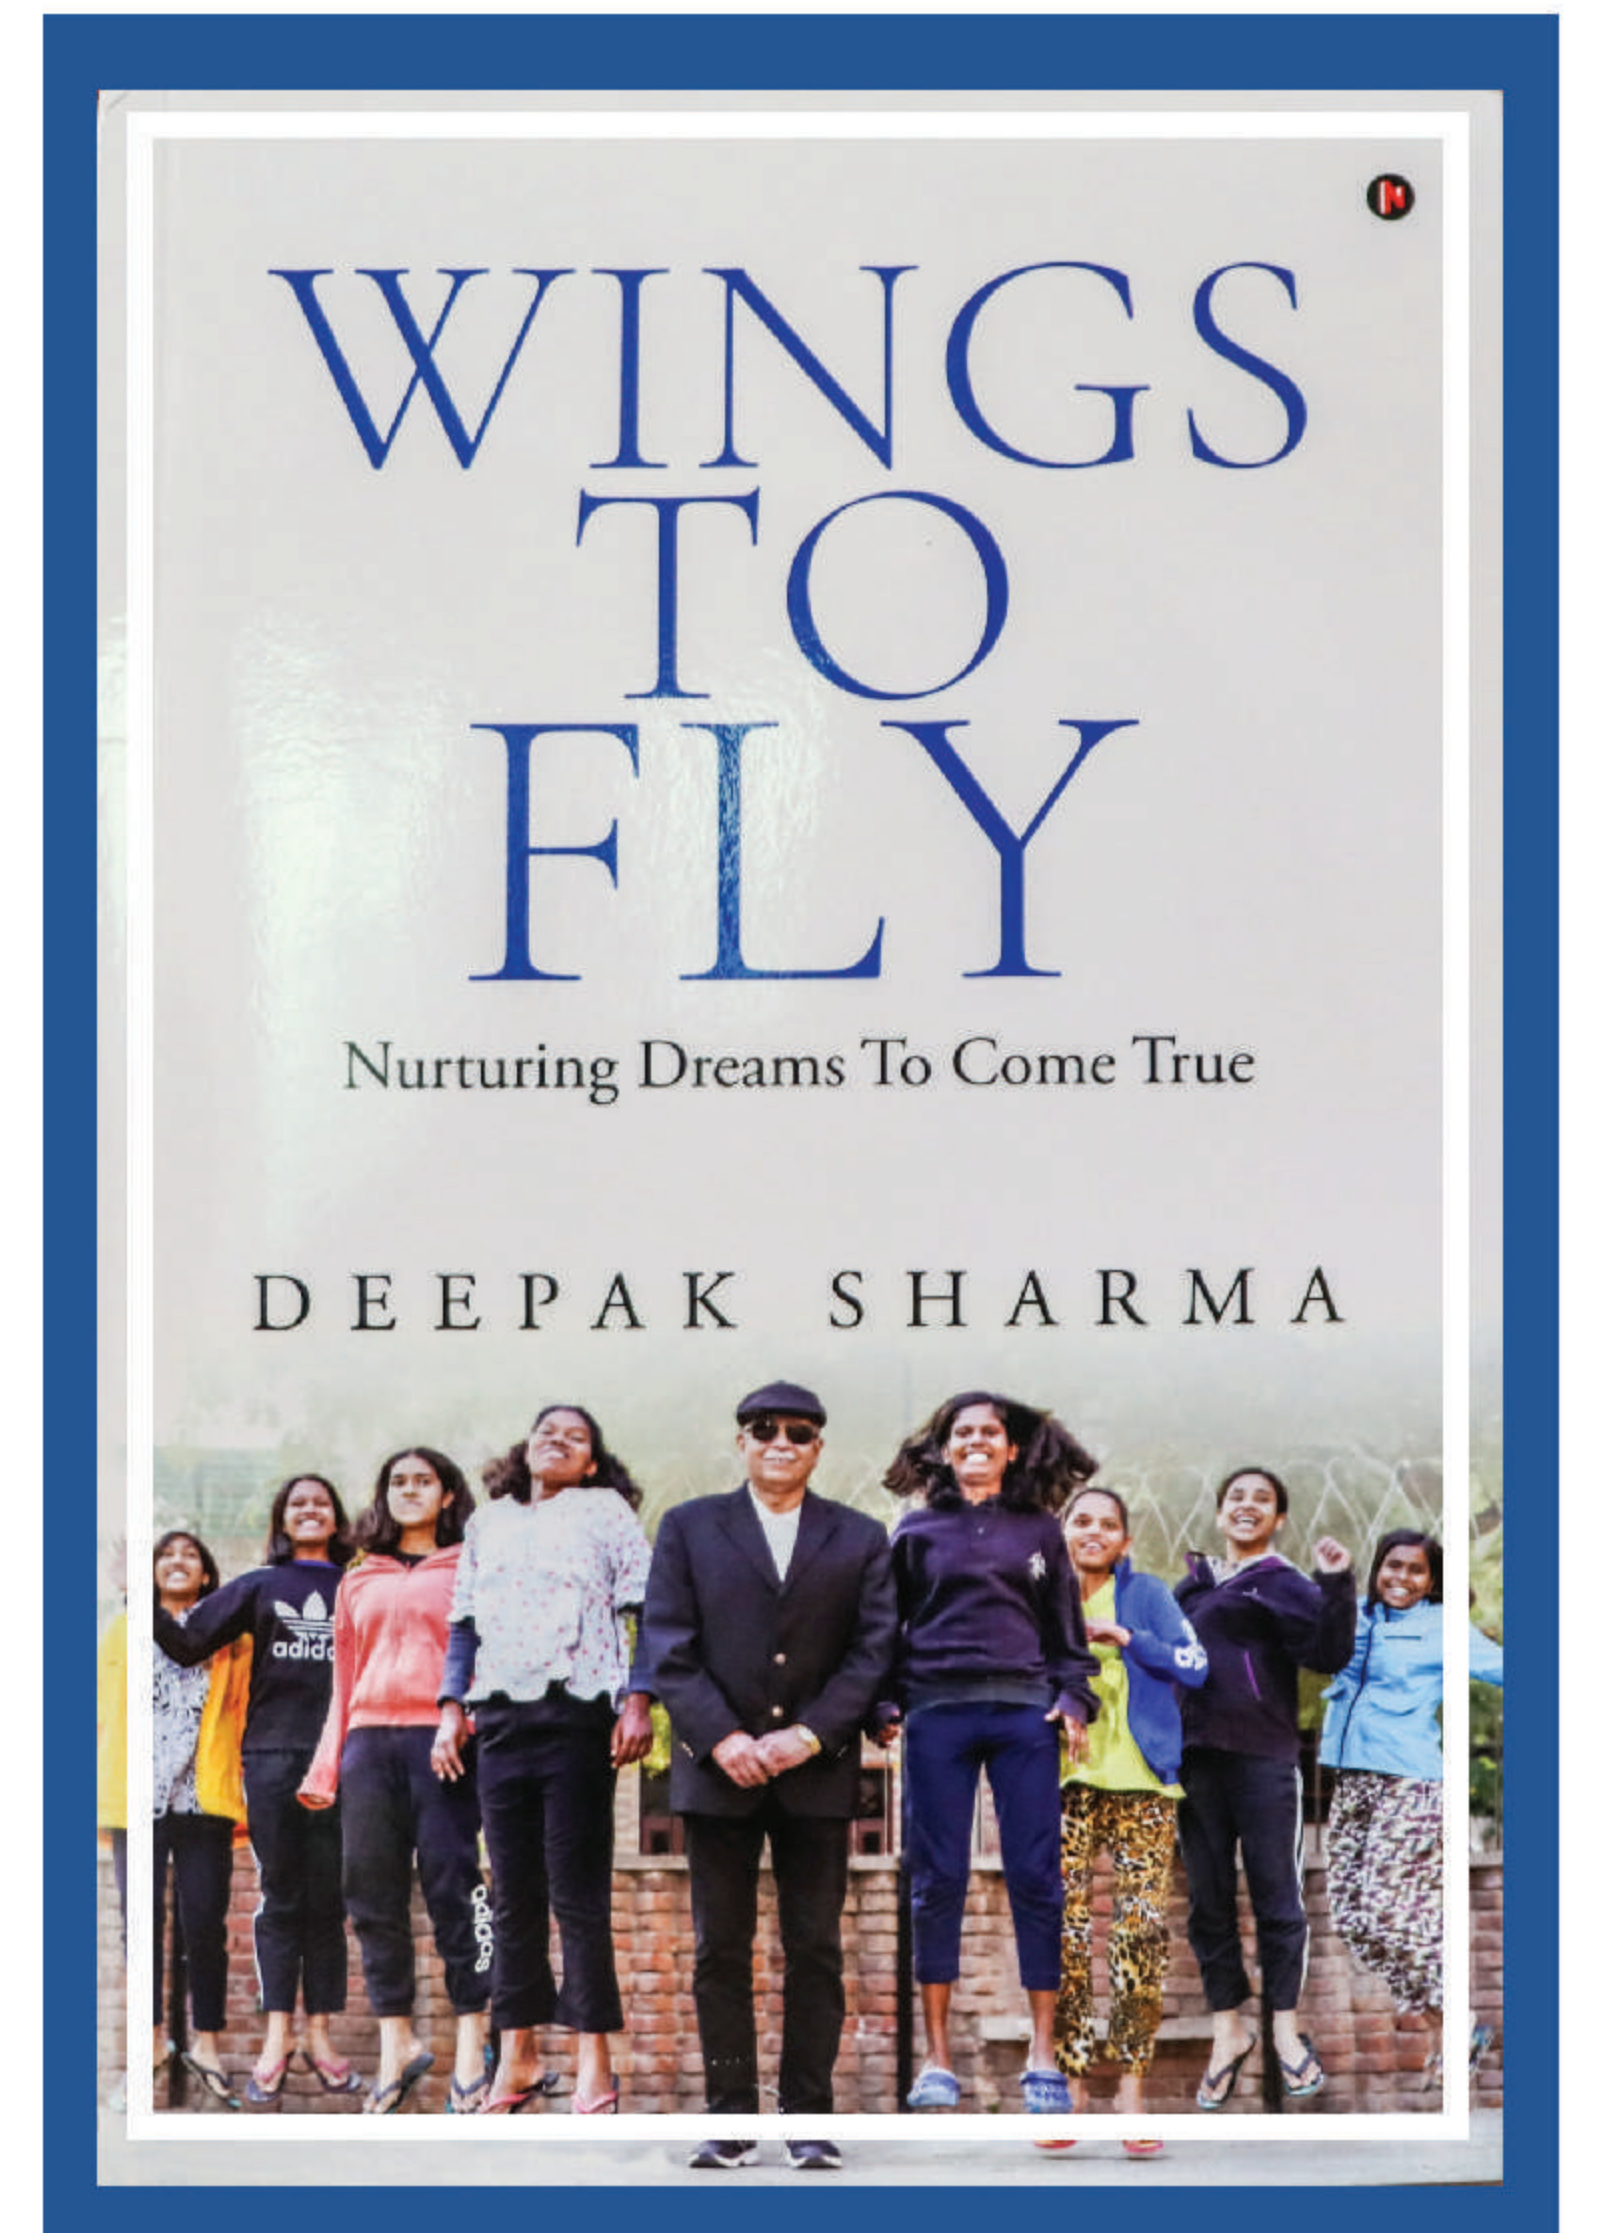

At the age of 53, Deepak Sharma decided to give up his job when he was at the height of his corporate career. He worked with well-known organizations like NTPC, ABB, ALSTOM, BSES, and the TATA Group. Much before reaching the age of superannuation, he realized that all the fantasies of the corporate world, materialistic possession, and the rat race were futile and temporary. He therefore bid adieu to the corporate job and decided to embrace something larger than self, and live a more purposeful life. He joined Udayan Care, a charitable trust and became a caregiver to children in need of parental care and protection.

WINGS TO FLY

Wings to Fly beautifully illustrates that instead of constantly climbing the ladder of success, sometimes we need to stop and think about those facing acute poverty and suffering. That is the true meaning of life! Deepak found his meaning and purpose of life while serving the underprivileged children at Udayan Care, a charitable trust. He devoted his heart, mind, soul, and wealth for them as a full-time volunteer and a guardian.

The book is a collection of his learnings and experiences shared in the form of incidents and anecdotes. It would inspire its readers to think deeply about the meaning of life and take concrete steps to make a significant contributions to society. It shows us that anyone can extend a helping hand and be a light (Deepak) of hope for someone else. True contentment and joy are found when we rise above ourselves and live for others.
